"We wanted someone who would be on site and involved in the process on a daily basis.

We wanted someone who was particular about the process and wanted to do things right. We wanted someone who would communicate with us throughout the build and stick to the timelines we agreed on. We got all of that and more with Matt."

—Dean & Anne Strauss

Details

“Matt had creative ideas for the house plan we were developing. Matt talked to us about the process of building a house and impressed us with the fact that he personally does all of the finish carpentry work in the house himself. Matt’s quality workmanship and attention to detail is evident throughout our house.”

—Dennis & Kathy Kumbalek

Quality

Elegance

“Matt as a general contractor was always available for questioning and was very knowledgeable about anything I needed to understand during the building process.

He was on site and involved with his subcontractors every step of the way.

I had many special requests and none of them went unanswered.”
